*Keywords:* Please provide no more than 2 lines of key words printed straight.

**RULES OF MAIN TEXT**

The volume of reports up to 1 page. In English, as indicated above, are presented: the title of the report, the names of the authors, the title of the organization, city, abstract and keywords, as well as the main text.

The organizing committee recommends the use of this file as a template for the preparation of papers.

The papers will be accepted for review only in case of full compliance with the design requirements listed below.

The file containing the materials of the report should be named after the name of the first author in English transcription. For example, Sidorov.doc. The second and subsequent materials of the report of the same author should be numbered, for example, Si-dorov\_2.doc, Sidorov\_3.doc. Only 3 materials of one author (co-author) are accepted for publication.

The materials of the reports are attached to the registration form of the conference participant posted on the site <http://rfc.iseu.by/>.

Text is typed in MS Word in Times New Roman font, size 10 pt; A4 paper, portrait orientation, line spacing – single, justified (for the main text). Indentation of the red line – 1 cm. Fields: right, top – 2 cm, left, bottom – 2.5 cm. From the edge of the page to the footer (page number) – 2.8 cm. Pages are not numbered. Figures and tables are placed in the body of materials of reports. Word wrapping is enabled, insert explicit hyphens using the "soft hyphen" symbol (Ctrl + - key combination), hyphenation (-) is not allowed. Hanging strings are not allowed. Please avoid footnotes by placing relevant information in the main text. The words "Theorem", "Proof", etc. located on the red line and in bold. The text of the statements is an ordinary straight line! In names containing two last names (for example, the Gauss – Markov theorem), they are separated by dashes with spaces. References to the literature are made in square brackets (for example, [1] or [2-5]).

**TABLE FORMAT**

The headset is Time New Roman, 10 pt, normal, single line spacing, no indentation. Headings are placed above the table, the headset is Time New Roman, 10 pt, in bold without indentation, case as in the sentence. Both the table and the title are centered. In the upper right corner is the word "Table", 10 pt, light italics, indicating its serial number. The point at the end is not set. Indent from the main text above and below 6 pt. The name of the graph (header) is made in 8 pt font. Table contents are centered vertically and horizontally. All tables must be referenced in the text. The table should not be wider than the column of text!

**FORMULAS**

$$\frac{1}{(\lambda_2 - \lambda_1)^2} \left( e_1 \frac{1 - e_2^2}{2\lambda_2} + e_2 \frac{1 - e_1^2}{2\lambda_1} - \frac{(e_1 + e_2)(1 - e_1 e_2)}{\lambda_2 + \lambda_1} \right)$$
$$r_{t-1} = \frac{\sigma_p^2 (a_{t,1} - a_{t,0})^2}{b_t^2}, \quad q_{t-1} = \frac{2\sigma_p^2 (a_{t,1} - a_{t,0})(a_t - a_{t,1})}{b_t^2}. \quad (8)$$

The submitted formulas should be on a separate line with a punch above and below 2 pt, center alignment, font – 10 pt, large index – 7 pt, small index – 5 pt, large character – 16 pt, small character – 10 pt. If the formula has a number (for example, (2.1)), the formula is located in the center, the number is on the right at the end of the line.

In the formula itself: Cyrillic letters, Greek and numbers – direct (direct text), Latin – italics. The name of the functions (cos, tg, ln, etc.) is direct.

## NON-TEXT OBJECTS

Any non-textual object (photo, drawing, diagram, graph, etc.) should be in contrast, black and white. Its size should not go beyond the text, the resolution of *illustrations is at least 300 dpi*. The signature is located under the object. The font size is 10 pt. Abbreviations Fig. 1. – in italics, signature – in direct font. The object and signature are centered, indented above and below 6 pt. Font size on charts, graphs, etc. – 10 pt. This size should ALWAYS be maintained when inserted into the text, because in case of scaling, the size of the object changes.

## BIBLIOGRAPHY

Список литературы набирается шрифтом Times New Roman 10 pt на языке оригинала. Обратите внимание на примеры библиографических описаний, приведенные ниже!!!

### Examples of bibliographic descriptions

**1. Books and monographs.** Surname and initials of the author. Title. After the name, slash repeat the name author (s), if there are four. (If the number of authors is more than four, then indicate the first, then write [and others]). Place of publication, publishing house, year. The total number of pages (or specific pages). For example:

*Kuznetsov, I. Abstracts, term papers and tests / I. Kuznetsov, L. Loyko. Mn : Zavigar, 1998. 125 p. (p. 32–34).*

**2. Articles in periodicals.** Surname and initials of the author. Article title. (After the title of the article, the last name, first name, middle name of the first four authors are repeated through a slash, if there are more, then indicate the first author and write [and others]) // Abbreviated name of the journal. Year. volume (T., V., V.). Number (or issue). Pages (C, P., S.) from – to. For example:

*Bard, A. J. Chemical modification of electrodes / A. J. Bard // J. Chem. Educ. 1983. V. 60. № 4. P. 302–304.*

*Ilge, H.-D. Zum absorptions- und fluoreszenzverhalten substituierter 1,3-diketoborate / H.-D. Ilge, D. Fasler, H. Hartman // Z. Chem. 1984. B. 24. № 6. S. 218–219.*

**3. Part of the book (collection).** Surname and initials of the author. Title of the article // Title of the collection. Place of publication, publishing house, year. Pages from – to. For example:

*Sviridov, V.V. Photographic processes with physical non-silver manifestation / V.V. Sviridov // Non-silver photographic processes. L.: Chemistry, 1984. P. 242–307.*

**4. Abstracts.** Surname and initials of the author. Title of the report (thesis) // Name of the conference. The name of the conference materials. Place of publication, year. Volume. Pages from - to. For example:

*Naumov, V. V. How to build an educational paradigm / V. V. Naumov // BSU: University education in the conditions of a change in educational paradigms: Materials scientific.-practical. conf. Mn., 1997. P. 166–171.*

*Yuan-Xiang Shi. Study of doping polycrystalline n-TiO<sub>2</sub> photoanode to extend its spectral response / Yuan-Xiang Shi, Xiao-Yung Dai, Ching-Hua Kao, Bi-Rou Sun // 33 Reun. Soc. int. electrochim. Res. develop. Lyon, 1982. V. 2. P. 804–805. (РЖ Химия 1983, 6Б 1902.)*

**5. Deposited scientific work .** Surname and initials of the author. Name of work / Place of work. City, year. The number of pages in the article. In which organization is deposited. Date of deposit. Depositor number. Additionally, you can indicate the place of publication of the abstract. For example:

*Luk, T. L. Hydrolytic films of titanium dioxide / T. L. Luk, D. M. Ovchinnikov, N. N. Goroshko, V. G. Sokolov / Belarusian State University. Mn., 1981. 23 h. Dep. in VINITI 28.05.81. № 2520.*

### 6. Theses:

*Streltsov, E. A. Redox processes involving metal ions on the surface of titanium dioxide films: dis. ... cand. Chem. Sciences: 02.00.04 / E. A. Streltsov. Mn., 1980. 204 s. (The specialty in which the dissertation was defended is indicated.)*

### 7. Abstracts of dissertations:

*Streltsov, E. A. Redox processes involving metal ions on the surface of titanium dioxide films: abstract. dis. ... cand. Chem. Sciences: 02.00.04 / E. A. Streltsov. Mn : BSU, 1980. 26 p.*
