

## **Hague Convention on Apostille**

Slovak Republic acceded the Hague Convention on Abolishing the Requirement of Legalization of Foreign Public Documents (called Hague Convention on Apostille ), which simplifies usage of public documents issued by the authorities of a Contracting State in the territory of another Contracting State. Thanks to this convention the foreign public documents intended for the use in SR as well as Slovak public documents for use in the Contracting Parties of the Convention are verified by specific authority assigned in each Contracting State of the Convention with a special certificate called Apostille.

### **Contracting Parties and authorities of the Convention :**
