

BUP Summer Course on Sustainability and Waste Management in the Baltic “Making Waste Work”

The deadline is over but two places for Nitra students are reserved, please apply as soon as possible at [Alexander Feher sandfeher@gmail.com](mailto:Alexander.Feher.sandfeher@gmail.com). The contribution to travel costs from Slovak sources is to be discussed (not guaranteed yet), the rest is free of charge.

Dear Colleagues,

Registrations are now open for the BUP Summer Course on Sustainability and Waste Management in the Baltic “Making Waste Work”, to be held in Hamburg, Germany on 17-21 September 2013. The event is organised as part of the project "RECO Baltic 21 Tech"

(<http://www.recobaltic21.net/>).

As usual, registration and attendance to the summer course is free of charges. Even though the organisers are unable to pay for travel costs or insurance of participants, accommodation and food will be offered, free of any charges, to accepted delegates. Since the number of places is limited, interested participants are encouraged to register, as soon as possible, and hence secure their participation. The allocation of places will be on a "first-come first-served" basis. Further details on the programme and on how to register can be seen at:

<http://recobaltic21.net/en/events/142-bup-summer-course-sustainability-waste-management-baltic-making-waste-work.html>

Sincerely yours,

Walter Leal
